About SP Industries

SP Industries commenced manufacturing for Mild Steel & High Tensile Fasteners in 2011 which are an integral part of the Power Sector. Today, SP Industries has the capability of manufacturing a wide range of Bolt/Nuts/washers to ensure faster erection turn-around for its customers and also reducing the need for storing surplus inventory at site.

Our Mission

SP Industries is India based producer that grows elite latch items, custom segments and attaching machine solutions for apparel and industrial customers around the world. Using over 10 years of learning and specialized skill, SP is regarded for solid reliable customer support and services, client-focused associations and ceaseless improvement systems. Our commitment to brilliance has made SP an innovator in latch structure, quality, distribution and application support.

Our Vision

The proceeded with notoriety of SP Industries as pioneer joined with our attention on constant improvement has put us on the way to turning into the top tier clasp fasteners supplier in the many mechanical markets we work together in. Our profundity and expansiveness of product offering will keep on extending in light of market needs and to new development markets we recognize.

We will continue to.....

- Concentrate on submitted client associations and joint effort.
- Extend and alter our worldwide nearness and sourcing model to meet and surpass client needs.
- Give adaptable, ingenious, and moral business contributions to give administration and answers for clients, merchants, workers, and other partners.

We will strive to.....

- Give upgraded specialized administration the executives and proactive store network answers for assistance oversee client business.
- Increment our emphasis on item development and plan through new materials, new items or item application blend.
- Grow and expand our corporate citizenship, and become the business of decision in the networks we work and live in.

Values:

Integrity: All together for our organization to be fruitful we should be associated, joined together and entirety. To be in honesty implies that the majority of the units of our organization impart to one and other. In this manner, our honesty depends on our capacity to impart sincerely and reliably.

Certifications:

**We are approved by
Globally Certified Organizations**

Quality Control

The application of our products is wide and varied.

We take care of Quality and precision in every step of our manufacturing process. Various tests are performed at different stages – including Raw Material evaluation, work in progress evaluation and finally finished product quality tests. Once the Product successfully passes all our quality tests, we finally approve the material for sales and distribution.

Manufacturing Facilities

Our aim for perfection. With this ideology in mind, Manufacturing System has been developed and are used to attain this. The entire system is an integrated one using SAP, right from Purchase to Material Receipt to Production Planning to Manufacturing and finally to dispatch of the finished products.
